THE LOST SENSES: DEAFNESS AND BLIND

"This is a work of great interest, from one of the most learned and accomplished writers of the age, revealing the mysteries of the world in which those live who have been deprived of the sense of sight or hearing. Ever since his boyhood, for more than thirty years, Dr. Kitto has passed a life of great activity as a scholar, in a state of the most intense deafness to which any living creature can be subjected. His account of himself, and of his discriminating remarks on the condition of the blind, (James Mitchell, Laura Bridgeman, and others,) are replete with profound thought on the interesting phenomenon presented in the progress of their mental training."—Christian Observer.

COME, LET US REASON TOGETHER. ORAL TESTIMONY.

ORAL TESTIMONY.

THOUSANDS feel it a duty to talk to their afficiend friends of the benefit derived from HAMPTON'S VEGETABLE TINCTURE. From day to day we have given the certificates of cures performed on our best-known-citizens, and still we have a perfect avalanche of letters pouring in upon us—all, all giving a weight of testimony that must convince the most skeptical. All are invited to call and read for themselves. The letter below is from one of the first mercantile firms. To those who know them, it must carry conviction, and induce many sufferers to give this Tincture a trial:

PORT BOYAL Va. July 27, 1852.

PORT ROYAL, Va., July 27, 1852. PORT ROYAL, Va., July 27, 1852.

Messrs. Mortimer & Monobray: Gents: We have again to send an order for more of your truly wonderful Hampton's Vegetable Tincture. Since it was first tried it has sold without an effort, and we have not seen the first person who has not been greatly benefited by its use. A gentleman of our neighborhood was induced to try the "Tincture" for a violent palpitation of the heart. He had suffered so much from it that he said he had prayed for death. He had taken but three doses when he assured us he would not take five hundred dollars for the benefit he had derived, and that he should never cease to remember us with rived, and that he should never cease to remember us with gratitude for calling his attention to so valuable a medicine Yours, truly, GRAY & PENDLETON. Yours, truly,

The Whole World, Attention!-Hear him, ye sick, and do likewise!!

Baltimore, Feb. 9, 1852.

Messrz. Mortimer & Mowbray: Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Sometime during last November I was taken with a very bad and serious cough. I was advised to take Cod-Liver Oil, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all my cough left me. Permit me also to state that, for the last fitteen years, I have suffered very much from Acute Rheumatism and Vertigo, confining me at times to my bed. I am fully convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think proper; and believe me, yours, very respectfully.

Mesers. Martimer & Manchray: Gents: Last September I was attacked with erysipelas, from which a dreadful ulcer formed on my right leg. Getting better of this, last November I took a deep cold, which led to what my physician told me was bilious pleurisy, which left me with a constant, deeply-seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaclated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINCTURE, and procured me a bottle, which I now pronounce BALTIMORE, July 6, 1852. advised me to try DR. Before I had taken hal the contents of one bottle I felt much improved; and now the contents of one bottle I felt much improved; and now, having taken but two bottes, my cough and pains have entirely left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine. Yours,

Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not move any part of my body without ery-ing with pain; at this time I also tried many remedios, in-ternal and external, without receiving any relief; I was at last advised to try HAMPTON'S VEGETABLE TINCTURE; last advised to try HAMPTON'S VENETABLE TINCTURE; before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way: I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, believing Yours, ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N. PORTSMOUTH, (Va.,) Aug. 18, 1851.

Mr. J. E. Boush—Dear Sir: While I am in general opposed to Patent Medicines, candor compols me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in Dyspepsia, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

COCHRAN'S FLANOSPHERICAL QUARTZ CRUSHING AND PULVEREZING MACHINES are now in daily operation for the
impection of the public, and will be submitted to any reasomable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their
durability, the undoubted principles upon which they operate, their effective operation and result, are jurdly entitled
to the consideration of all parties engaged in grinding,
crushing, and Pulverizing Quartz, from Ore, Zinc, Copper,
and Lead Ores, and all other Oree or Mineral substances.

It is the-speculiar feature of the economy of these machines that they are found capable of crushing and pulverising into the inest powder any amount of Quartz or other
earthy matter, in proportion to the amount of weight or
power applied. The earthy matter is so completely ground
and pulverized, that the Gold may be easily separated, and
subjected to any process of unalgamation that may be necissary.

The machines work and deliver wet or dry, as may be re-

subjected to any process of smalgamation that may be necessary.

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being put-wrized. They are at once applicable for all purposes of grinding and pulverizing, from those required by the Druggist to those of the most extensive operations in California and Australia.

These machines are from two to twelve feet in diameter, with balls or spheres from three inches to five feet in diameter, each machine weighing from 250 pounds to 20 tons each, and are sold, with the right to use them, at from \$100 to \$5,000 each.

any desired amount of power may be used, from that of man or horse upward.

The proprietors of this invention solicit examination, and will prove by practical tests the east superiority and economy of these machines over any other, for crushing, grinding, or putverlying, heredgrove affered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Messrs. Burr, Waterman & Co., first streets outh of Peck Slip Ferry, every day, from 7 to 9 a.m., and from 4 to 6 p. m. For further particulars, apply to

SHADES OF CHARACTER, OR THE INFANT PILORIM.

BY ANNE WOODROFFE, author of "Michael Kemp." In two volumes. R. Carter & Brothers. "A charming book, full of deep, true, and glowing sentiment, with lively glimpses of character, pen-portraits and sketches, which keep the interest ever alive, and withal wise instruction is so happily blended that the pleasure of the book is only equalled by its profit. It is a better book than "The Wide, Wide World," which has been so widely and justly popular, and we are sure that those who read this will be glad that we have called their attention to it."—New York Observer.
